### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 38-40 and newly added claims 44-86 are pending as amended 5/30/08.

Claims 38, 44, 57, 63, 72, 78, 81 and 85 are independent.

### ***Allowable Subject Matter - Withdrawn***

Claims 38-40 were indicated as allowed in the first action. The Examiner regrets that this was premature, because a reference has been found that would read on claim 38. Accordingly, the indication of allowability of claims 38-40 is hereby withdrawn.

### ***Claim Objections***

Claim no. 47 is objected to because of the following informalities: It is missing. Appropriate correction is required.

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 38-40, 72-77, drawn to a system having a manifold, threaded sockets and a leg.

Group II, claim(s) 44-46, 48-56, drawn to a tankless reverse osmosis system.

Group III, claim(s) 57-62, drawn to a reverse osmosis system having sensors.

Group IV, claim(s) 63-71, drawn to a reverse osmosis system having a filter and a membrane in a housing.

Group V, claim(s) 78-80, drawn to a reverse osmosis system having dedicated connectors to the various ports.

Group VI, claim(s) 81-86, drawn to a reverse osmosis system having a key that engages the housing.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions in one or more groups above are anticipated or made obvious by prior arts (Group I – US 2004/0104157; Group II – Robbins), which are X or Y references, and thus do not have a special common technical feature. They also do not have a common technical feature.

A telephone call was not made to the applicant to request an oral election to the above restriction requirement, because of the complexity of the election requirement because of the large number of groups.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Krishnan S. Menon whose telephone number is 571-272-1143. The examiner can normally be reached on 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David R. Sample can be reached on 571-272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
